

Milestone 3 – Week 6

System Testing and Feedback Collection
Automated Podcast Transcription Project

◆ Episode 1

Duration: ~30 minutes

Speakers: 2

Transcription Issues:

- Minor repetition in one segment
- A few informal spoken words transcribed literally

Segmentation Issues:

- Segment 2 transition slightly abrupt
- Topic shift detected slightly early

Summary Issues:

- Summary slightly longer than needed
- Could be more concise

Keyword Issues:

- Some generic terms included
- Minor repetition

Sentiment Issues:

- Sentiment correctly labeled

UI Issues:

- No functional issues
- Layout consistent

Timestamp Issues:

- Timestamps accurate

Overall Performance: Good

◆ Episode 2

Duration: ~25 minutes

Speakers: 1

Transcription Issues:

- Very few minor filler words included
- No major errors

Segmentation Issues:

- Logical segment division
- Clear topic boundaries

Summary Issues:

- Clear and informative
- Slightly verbose

Keyword Issues:

- Mostly relevant
- One less important keyword included

Sentiment Issues:

- Accurate labeling

UI Issues:

- Dropdown working properly

Timestamp Issues:

- Accurate alignment

Overall Performance: Very Good

◆ Episode 3

Duration: ~40 minutes

Speakers: 2

Transcription Issues:

- Slight punctuation inconsistency
- Minor formatting variation

Segmentation Issues:

- One segment longer than expected
- Topic shift slightly delayed

Summary Issues:

- Good clarity
- Could highlight key insight more strongly

Keyword Issues:

- Relevant
- Some repetition

Sentiment Issues:

- Mostly correct
- One neutral segment labeled positive

UI Issues:

- No bugs

Timestamp Issues:

- Correct

Overall Performance: Good

◆ Episode 4

Duration: ~20 minutes

Speakers: 1

Transcription Issues:

- Clean and readable
- No noticeable errors

Segmentation Issues:

- Logical segmentation
- Clear topic grouping

Summary Issues:

- Concise and clear
- Captures main idea

Keyword Issues:

- Accurate representation of themes

Sentiment Issues:

- Correctly labeled

UI Issues:

- Word cloud loaded properly

Timestamp Issues:

- Accurate

Overall Performance: Excellent

◆ Episode 5

Duration: ~35 minutes

Speakers: 2

Transcription Issues:

- Slight repetition in conversational phrases

Segmentation Issues:

- First segment slightly long

Summary Issues:

- Informative but slightly detailed
- Could be shortened

Keyword Issues:

- Highly relevant
- “AI” appeared frequently

Sentiment Issues:

- Correctly labeled positive

UI Issues:

- Layout stable

Timestamp Issues:

- Accurate

Overall Performance: Good

◆ Episode 6

Duration: ~45 minutes

Speakers: 3

Transcription Issues:

- Minor speaker overlap not clearly separated

Segmentation Issues:

- One topic shift detected slightly late

Summary Issues:

- Clear but slightly lengthy

Keyword Issues:

- Relevant overall
- One broad term included

Sentiment Issues:

- Correct

UI Issues:

- No errors observed

Timestamp Issues:

- Proper alignment

Overall Performance: Good

◆ Episode 7

Duration: ~30 minutes

Speakers: 1–2

Transcription Issues:

- Minor filler words included
- Overall clear

Segmentation Issues:

- Logical boundaries
- Slightly uneven segment lengths

Summary Issues:

- Clear explanation
- Could be slightly more concise

Keyword Issues:

- Relevant
- Small redundancy

Sentiment Issues:

- Correct labeling

UI Issues:

- Responsive and stable

Timestamp Issues:

- Accurate

Overall Performance: Very Good
